# FOREWORD

Fabiancsics Horses Stable is a professional competition, trading and breeding stable specialized in the training of sport horses. Our horses for sale have excellent pedigrees and jumping ability. Any of them can be a successful partner for their future riders.

Gábor Fabiancsics's enthusiasm for stallions led to the opening of the Fabiancsics Studfarm in 2018. We offer stallions for breeders with excellent pedigrees and outstanding results in the sport for ambitious breeders. The trend in equestrian sports in the recent years has been that the price of top horses has skyrocketed, making them practically inaccessible. However quality breeding provides an opportunity for such offspring to be born right at your stable. This goal in mind, Fabiancsics Horses' stud has been expanded with mares of exceptional bloodline and successful sport careers. The first foals arrived in 2019 at our studfarm. Our goal is to see top-quality sporthorses in the competition rings in the upcoming years.
